Safety and maintenance precautions

For long term storage , remember to unplug the power cord and cover the cabinet with a dust cover.

Tips :

Before start using this product, please read the instructions carefully Please strictly follow the instructions for installation, application and maintenance.We will not be responsible for any damage caused by the wrong operation. Only authorized staff can use the cabinet, and only professional maintainer can maintain the cabinet.

- Must ground lead

The power socket must be grounded to avoid electric leakage. The cabinet must be located in a suitable storage place.

- Avoid slope

The wheels must be locked to prevent any movement. Before moving, release the lock on the wheel.

- Avoid high temperature

In order to prolong the life cycle, avoid rain and direct sunlight. Do not store the cabinet next to the window.

- Avoid moisture

When cleaning, do not pour water or alcohol directly on the cabinet, liquids will damage the internal circuit.
